It's a way of life!

August 24, 2021

COVID UPDATE: During the facility's ongoing testing of residents and staff on Monday, August 23, 2021, one resident in the nursing home tested positive for COVID-19. All other residents and staff in the nursing home and assisted living apartments tested negative.

VISITING: The one positive COVID-19 result restricts visiting for an additional two weeks. To assist families and residents maintain connection with each other, family members may call and schedule a virtual visit with their loved one. Please call during these hours: M-F 8:30 a.m. to 4:30 p.m. and ask for Tracy. The reason we ask persons call during office hours is charge nurses do not have access to the visiting schedule appointment book and we do not want to take them away from their nursing duties.

The assisted living apartments still have outside visiting available. Please follow the same hours to schedule outdoor visiting.

ACTIVITIES: Last week, I agreed to call bingo on two different days for residents who love to play bingo. Oh my gosh did I ever get schooled on the various games of bingo: small picture frame, railroad (you only call numbers under I N G), and blackout. I loved the fact the residents are so engaged in playing bingo. Some played three cards at one time. The residents were kind in trying to teach me the process (who gets what color of chips and who gets different colored cards for visual reasons) and kindly put up with my lack of knowledge and skills. Residents, may you all be winners of bingo this week.
